

Become a Biotop partner and build the pools of the future

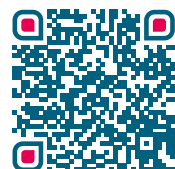

waves of enthusiasm
since 1985

Natural. Chlorine-free. Sustainable. Premium.

Let's talk

Would you like to establish natural pools and swimming ponds as a premium business segment in your company? We would be happy to show you how the Biotop partnership works—from training and system technology to lead generation and territorial protection.

**Arrange a no-obligation
initial consultation now.**

What makes us the global market leader

Biotop has been developing and building natural swimming pools since 1985. Our patented system technology has proven itself thousands of times over worldwide – from swimming ponds to living pools. Research, our own water laboratory, and clear quality standards ensure that our systems function reliably over the long term.

We are looking for partners who share our passion for inspiring even more people to swim in natural water.

Your advantages as a partner company

- » Constantly growing demand for natural pools and swimming ponds
- » Attractive premium business segment and ideal complement to gardening and landscaping
- » Sophisticated, patented system technology, reliable in operation and easy for your team to understand
- » Flexible application: for new constructions as well as for conversions of classic chlorine pools
- » Brand & marketing that help sell: you benefit from Biotop's reputation and the advertising network
- » Contract area with limited partners: regional enquiries go directly to you
- » Easy to build – easy to maintain & care for

DI Marion Hanek
Management

Everything you need to get started quickly and successfully

As a licensor, we create the best conditions for the acquisition, planning, construction and operation of Biotop facilities.

TRAINING & EXPERTISE:

Comprehensive training and continuing education programme for you and your team.

System documentation, partner web and ongoing updates to the latest state of the art.

Annual partner and practitioner meetings to exchange experiences.

MARKETING & LEADS:

Professional, nationwide marketing and press relations.

Extensive reference photo material and advertising materials (catalogues, trade fair flyers, consultation folders, etc.).

Regional enquiries from your area will be forwarded to you.

TECHNOLOGY & PROJECT SUPPORT:

Intensive support for your first systems on site and during planning. Followed by ongoing technical support.

Continuous research and development work on our products for quality assurance and ongoing development.

In-house laboratory for fast, reliable water analysis.

Webshop and information portal exclusively for partner companies.

Requirements for partners

We are expanding our partner network in a targeted manner and are looking for companies which combine premium quality with a natural water philosophy.

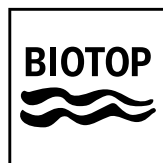

- » High quality standards and enthusiasm for premium projects
- » Resources to consistently build up the new business area
- » Construction in accordance with quality guidelines and annual maintenance of the facilities
- » Regional marketing to promote sales of natural facilities
- » Active participation in the network and interest in long-term cooperation
- » Ideally, previous experience in the construction of pools and swimming ponds

You focus on construction quality and customer satisfaction – we focus on the system, brand and support.
